A GUIDE TO CARE FOR

Stone

*Reconstituted Stone, Marble,
Crystal Stone, Romblon Stone*

MAINTAINING YOUR FURNITURE

Reconstituted stone is porous by nature. Frequent cleaning is recommended to remove abrasive agents from its surfaces. Use neutral pH cleaners specifically designed for natural stone that do not contain acid or bleach and will not affect existing sealers (many ceramic cleaners can stain, damage, or dull reconstituted stone). Dampen the surface of the stone with water to prevent cleaning solution from sticking on the surface. Remove excess cleaning solution to prevent staining the surface. Prior to exposing to freezing temperatures, make sure pieces are dry and covered.

TO BE EXPECTED

The wear of your product contributes to its uniqueness. Reconstituted stone is intended to develop a patina and improve with time. Cracks and variation in color are normal.

SPOT CLEANING

Wipe spills as soon as possible, then clean your furniture as detailed above.

KEEP IN MIND...

Waxing is not necessary and may create undesired marks on surface areas where wax is applied. Cover your furniture and keep it raised off the ground when not in use and during extreme weather conditions. Do not leave your stone product sitting in standing water.
