

HENSON CHANDELIER

CHAHENSON2824SL
MG000129

HENSON, #DNR#, 28"Dx24"H Silver Metal.

The sculptural Henson's structural scallops and glass drops are subtly evocative of an underwater scene. The scale-like loops gracefully taper, keeping the chandelier light and airy while the bluish-green tint of the glass adds to the piece's water-like quality. This multi-layered chandelier is a statement piece that's beautifully understated.
